We @9Moodapp had little talk with this artist and illustrator Natalia ([instagram.com/1charmingsunrise](https://www.instagram.com/1charmingsunrise)). She studied engineering.

We asked her about her illustration and art experience. She replied,

iiTh I never planned on being creative seriously. Yes, I drew a lot as a child. And then, as a child I graduated from **art school**. Then I solemnly swore to my mother that the art was over. My subsequent education is not connected with creativity. I have two of them - I am an **Engineer** and **Logistician**. I am also very sensitive to everything. Many years later, after graduating from art school, I started drawing again. First, I draw rarely, but now **I draw regularly**.

#### Translation in Russian :

Я никогда не планировала заниматься творчеством. Да, я много рисовала ребёнком. И тогда же, в детстве, закончила художественную школу. После чего торжественно поклялась моей матери, что с искусством покончено. Моё образование никак не связано с творчеством. Собственно, у меня их два: инженерное и логистическое. Тем не менее...я всегда была равнодушна к красоте. И спустя несколько лет после окончания художественной школы я начала рисовать снова. Сначала под настроение, что случалось редко. Потом регулярно.

Then we asked her about inspiration for this artistic skills. She replied,

With pleasure, Creativity is for my **work, hobby, rest, relax, self-expressions**. Sometimes even **passion**. I always draw by my hand, pencil, paper - whatever I need; Ah! coffee and good music with earphones. Those who are familiar with my drawings, for some reason see them as me, or my soul, as they say. Well, it may be good.

Много и с удовольствием! Творчество – моя работа, моё хобби, мой релакс! Иногда даже страсть. Я всегда рисую только от руки. Бумага и карандаш, вот и все, что мне нужно. Ну и конечно, кофе и музыка в наушниках! Те, кто знаком с моими рисунками, почему-то видят в них меня. Говорят, что в работах угадывается моя душа. Ну, что же... Возможно так и есть.

Here are some art work made by Natalia ([instagram.com/1charmingsunrise](https://www.instagram.com/1charmingsunrise)).

It's when you wake up lazily and slowly take a shower ... Turning to the sheet, you slap barefoot into the kitchen and make your morning coffee. The very first and fragrant. Drink it slowly, and enjoying every sip ... And the sun rises through the window, and glare of light glides over the skin. And you look at the glass, in the urban city life. You're making plans for the day. And, probably, you are waiting for someone's call.

At times I want to portray my antipode in everything. A kind of peppercorn, living a life that I have never had and never will be.
